1 Introduction

The Commutative law is $a + b = b + a$, for example $1 + 2 = 2 + 1$.

$$a + b = b + a$$

$$a + b = b + a$$

The Commutative law is

$$a * b = b * a$$

The Associative law is:

$$(a * b) * c = a * (b * c)$$

The Distributive law is:

$$a * (b + c) = a * b + a * c$$

$$a + b = b + a \tag{1}$$
